

ADDENDUM TO T231 DATA SHEET

T231-HS (HIGH SPEED VCXO CLOCK GENERATOR)

The following parametric information for the T231-HS supersedes that shown on the T231 data sheet:

Features List

- Phase Noise at 100 KHz offset from F_c is typically -145dBc/Hz

Absolute Maximum Ratings

- No changes

DC Characteristics

- No changes

AC Characteristics

- Phase Noise at 100 KHz offset from F_c is typically -145dBc/Hz

Graphs of Typical Operating Conditions

- Phase Noise vs. Frequency Offset – Plot should reflect phase noise at 100 KHz offset from F_c to be typically -145dBc/Hz

Ordering Information

<u>Part Number</u>	<u>Package</u>
T231-HS-DPW	Die-Probed Wafer
T231-HS-DIE	Die-Waffle Pack
T231-HS-M10	10-Pin MSOP
T231-HS-S14	14-Pin SOIC
